Professional Summary

- 10 years of professional experience in understanding and analyzing the software requirements.
- Expert knowledge in Front End Technologies using **Angular 2+, Angular JS, NGRX, React, NodeJS, HTML5, CSS3, SCSS, RWD, JavaScript.**
- Expert knowledge of writing Unit test cases using Jasmine, Karma and Jest.
- Involved in creating UI Architecture along with code reviews.
- Good knowledge in creating Micro frontend and MonoRepo Architecture.
- Expert skills on creating Responsive Web design and getting rid of Cross Browser UI Pitfalls.
- knowledge of using Graph Library using D3.JS, NGX Chart.
- Knowledge of document processing tool such as Syncfusion, text control.
- Good Knowledge on creating Hybrid Application using PhoneGap, Apache Cordova.
- Good knowledge in creating Headless CMS using Strapi.
- Hands on experience on azure development, worked on azure web application, app services, and azure AD.
- Knowledge in setting up continuous integration and continuous deployment pipeline.
- Good knowledge on Agile Development process.
- Creating Solution Approach and Involved in RFP & Estimations

Work History

Yash Technologies

Senior UI Lead

August 2020- Present

FISolutions(India)Pvt.Ltd.

Product Development Specialist

March 2017 - Present

TATA CONSULTANCY SERVICES

System Engineer

Jan 2014 - March 2017

KEY SKILLS

- Angular 2+
- ReactJS
- Redux-Observables
- RxJS
- NGRX/Redux
- AngularJS
- NodeJS
- Express
- JavaScript
- TypeScript
- Ionic
- Schematics
- Material
- HTML / HTML5
- CSS3 / SCSS
- MongoDB/ Mongoose
- jQuery
- Accessibility
- Bidirectionality (RTL Support)

TOOLS / SOFTWARES:

- Git / Git Bash
- Jira / Azure/Agile
- Visual studio code
- Cordova
- Jaws
- Jenkins

Professional Work Experience

Yash Technologies

Project Name: PTG (Practice Technology Group)
Team Size: 3
Technologies: Angular, React, NodeJS, Schematics

- Responsible for architecting, solutioning and development of web applications.
- Worked and Architected on R&D projects metaverse, Interview Assessment Portal, Micro Fronted.
- Worked and Architected Reusable component Library.
- Worked and Architected CLI tool to generate Applications with common configuration like i18n, theme, NGRX.
- Responsible to create Proposal documents, best practices documents and training materials

Project Name: Silverlight Migration
Team Size: 10
Technologies: React, Redux-observable, TypeScript, JavaScript, ES6, SCSS, HTML

- Lead UI Team and Design Application architecture
- Migrate Silverlight logic and screens in React based applications
- Create UI components and integrate web APIs using AjaxClient.
- Implement Statement management using Redux and Redux Observable
- Write Unit Test cases using Jest and RTL
- Code Review and prepare design documents

Project Name: MapApp
Team Size: 5
Technologies: React, Redux-observable, TypeScript, JavaScript, ES6, SCSS, HTML

- Lead UI Team and Design Application architecture
- Implement state management using Redux and Redux Observables in existing application
- Write Unit Test cases using Jest and RTL
- Used antd library for forms, tables components
- Mentor team and perform code review.

Project Name: Green zone monitoring through Drone
Team Size: 5
Technologies: Angular 11, Bootstrap, TypeScript, JavaScript, ES6, SCSS, HTML, Google Map API

- Develop dashboard to monitor IoT based drone activities and sprinkler.
- End to end application development
- Write Unit test Cases with 90% coverage.

Project Name: Sky 2.0
Team Size: 5
Technologies: Angular 10, NGRX, Bootstrap, TypeScript, JavaScript, ES6, SCSS, HTML,

- Develop web application to provide solution for real estate closing, title and escrow.
- Integrated Document Editor like TextFControl and PdfTrone
- Implemented state management using NGRX.
- Converted UX wireframes into web pages.
- Created Reusable components and directives.
- End to end application development
- Write Unit test Cases with 90% coverage

FIS Solutions (India) Pvt. Ltd.

Project Name: RUF (Responsive UI Framework)

Team Size: 12

Technologies: Angular 8, Angular Material, TypeScript, JavaScript, NodeJS, ES6, SCSS, HTML, schematics, Jenkins

- Develop UI framework which is being used across all the web application developed in FIS.
- Build reusable code, components, directives, services.
- Build reusable libraries.
- Build scaffolding templates.
- Create automation script for build and deployment.
- Code review.
- Write unit and e2e test cases.

Project Name: IDP Login Flow

Team Size: 4

Technologies: Angular 8, Angular Material, TypeScript, RxJS, JavaScript, NodeJS, ES6, SCSS, HTML, RUF

- Developing Web application front end as per wire frame design.
- Build reusable code, components, directives, services.
- Add Node Backend to connect with Java Backend.
- Code review.
- Write unit and e2e test cases.

Tata Consultancy Services

Project Name: AIM (Automated Incident Management)

Team Size: 10

Technologies: AngularJS, C#, MVC, HTML, PowerShell.

- This Project provided Automated Incident Management solutions for more than 200 thousand Microsoft servers to solve any Application/software issues using PowerShell scripts and C# based applications.
- Create web portal to create incident tickets.
- Testing and Deployment

Project Name: Infopedia

Team Size: 3

Technologies: jQuery, AngularJS, HTML5, CSS3, Jaws, Narrator

- Implement Web accessibility for Existing SharePoint website.
- Create Web Accessible web pages.

- Testing and Deployment

EDUCATION

B.E (Computer Science)	C.T.A.E., Udaipur	2013	6.86 (0GPA)
XII	RBSE Board	2008	80.77
X	RBSE Board	2006	80

Personal Details

- Name : Lokesh Daiya
- Gender : Male
- Marital Status : Married
- Date of Birth : 29 June 19
- Languages Known : English, Hindi.
- Contact No : +91-7758846988, +91-9602645772
- Permanent Address : Udaipur, Rajasthan
- Current Location : Pune – 411027
